EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Record:

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

In the Claims:

Claim 11 line 1, the word "claim 1" has been changed to – claim 10 – due to mistyped.

Reasons for Allowance

2. Claims 1-11 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance:

Art Unit: 3754

The main reasons for allowance of claim 1-11 is the claimed subject matter regarding " a controller coupled to the sensor arrangement for receiving the sensor outputs, said controller arranged to select a sensor output corresponding to one of the plurality of sensor measurement ranges as an input signal for a control process, determine if the range of the selected sensor output is of a sensitivity higher than a predetermined sensitivity, convert the value of a higher sensitivity sensor output to a value corresponding to the predetermined sensitivity range, determine an error value between the converted sensor output value and a sensor output corresponding to a range having the predetermined sensitivity, and modify the received sensor output based on the error value when switching from the selected sensor output to a sensor output corresponding to the range of the predetermined sensitivity" which the prior art references did not disclose.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to HIEU T. VO whose telephone number is 703-308-1951.

The examiner can normally be reached on M-F, 2nd Friday Off.
